Erbil, 60m street, Bakhtiari

About Us

Our Company has skilled and experienced staff and modern construction machineries and equipment. With the help of our modern heavy equipment and professional technical staff and based on High National and International Standards and Quality Assurance, we execute our projects in KURDISTAN. We have completed and ongoing projects in almost all the Cities and Districts within Kurdistan. Our Company has great reputation and reliability. We are proud to be with such a great company. One of our main targets is to satisfy our clients and to maintain our standards.

We have experience in field of Construction for (29) years. We started in 1988 as a contractor; the business started and was developed gradually, successive in undertaking and carrying our different important projects, until 2004 that Snar Company was established.

Snar Company entered strongly in to KURDISTAN market with its new name Snar Company in 2004, since then we have performed many strategic projects for both Governmental and Private Sector.

And since the new sector explored in Kurdistan which is Oil and Gas, we entered this sector very strongly doing all civil and logistic works in this field. We own more than 120 units of heavy equipment.

Our main activities:

1. Building & building services.
2. Civil construction.
3. HSE services.
4. Firefighting equipment supply.
5. Civil infrastructure.
6. EPC facilities.
7. Oil & Gas industry logistics.
8. Warehousing & storage facilities.
9. Waste management.
10. Fuel supply & water supply.
11. Supply of civil construction equipment's.

Safety

we adhere to an employee safety-first approach in our operations. The benefit of this approach can be evidenced by millions of accident-free work hours. To maintain our commitment to work safety, we constantly review and upgrade our on-site safety training and procedures to international standards.

We are proud to mention that till this date our records are free from LTIs, our company LTIRF is 0.

With our modern fleet of civil construction equipment plus supporting vehicles & with the high qualified technical personnel, SNAR GENERAL CONSTRUCTION COMPANY performed some of the most challenging contracts in.

Quality assurance:

The high quality in our activities is a hallmark that has distinguished us in our endeavors as an international contractor. We strive to enhance this attribute of our COMPANY, so as to differentiate us from our competitors in the industry and to contribute to our long term reputation and growth.
